The States, in pursuance of their Resolution of the 28th day of January, 1987, hereby order:—

PART I

LICENSING OF FISHERIES

1. (1) Subject to the succeeding provisions of this Ordinance, where the Committee is satisfied that it is in the interests of the fishing industry in the Island so to do, the Committee may, subject to the provisions of this section, from time to time, by order designate any area of the shore and bed of the sea, above or below, or partly above and partly below, low water mark and within the territorial waters adjacent to this Island (which shore and bed are hereinafter referred to as “the sea shore”) for the establishment or improvement and for the maintenance and regulation, of a fishery for fish of any description as may be specified in the order.

(2) In any case where the Committee proposes to make an order under this section, the Committee shall publish on at least two occasions in “La Gazette Officielle” a notice of the Committee’s proposal, stating the terms of the draft order, the address to which objections to the proposal may be sent and the period, which shall be not less than twenty-one days beginning with the date on which the notice is first published in accordance with this subsection, within which any such objection may be so sent.

(3) The Committee shall before making an order under this section consider any objection sent to the
Committee in accordance with a notice under subsection (2) of this section.

(4) Every order made under this section shall prescribe the manner in which the limits of any area of a fishery to which the order relates and within which the right of several fishery is exercisable by virtue of a licence granted under section 3 of this Ordinance or, as the case may be, of that part of that area as may for the purposes of section 5 of this Ordinance be specified in such licence, shall be marked.

(5) The terms of any order made under this section shall be published by the Committee on at least one occasion in “La Gazette Officielle” prior to the date of the coming into effect thereof.

(6) Every order made under this section shall be laid before a meeting of the States as soon as may be after the making thereof and if, at that meeting or at the next subsequent meeting, the States resolve that the order be annulled, the order shall cease to have effect but without prejudice to anything done thereunder or to the making by the Committee of a new order.

2. (1) Where an order is for the time being in force under section 1 of this Ordinance, then, subject to the succeeding provisions of this Ordinance and to any restrictions and exceptions contained in the order, the Committee may, in pursuance of a licence granted under section 3 of this Ordinance (hereinafter referred to as a “Fishery Licence”), authorise such persons as may be specified in the licence (hereinafter referred to as “the licensee”) to exercise, with respect to the whole of the area of the fishery to which the order relates or with respect to such part of that area as shall be specified in the
licensure, such right as shall be specified in the licence (hereinafter referred to as a “right of several fishery”) to the exclusive right of depositing, propagating, dredging, fishing for and taking fish of any description to which the order applies as shall be specified in the licence, and in the exercise of that right within those limits to—

(a) make and maintain beds for such fish;

(b) install and maintain cages for such fish;

(c) do all other things for obtaining, storing and disposing of the produce of his fishery;

as shall be specified in the licence.

(2) Where an order is for the time being in force under section 1 of this Ordinance, a person shall not dredge, fish for or take, within any part of the area of the fishery to which the order relates, fish of the description to which the order applies except under the authority and in accordance with a licence granted under the provisions of section 3 of this Ordinance.

(3) Any person who contravenes or fails to comply with the provisions of the last preceding subsection shall be guilty of an offence and liable, on conviction, to a fine not exceeding five hundred pounds.

3. (1) Any person desirous of obtaining a Fishery Licence shall make application in that behalf to the Committee and such application shall be in such form and accompanied by such information as the Committee may, from time to time, require.
(2) The Committee may upon receipt of an application under the provisions of the last preceding subsection—

(a) grant the licence applied for; or

(b) refuse to grant such licence; or

(c) grant such licence subject to such conditions as the Committee may consider it necessary or expedient to impose.

(3) In deciding whether or not, in the exercise of its powers under this section, to grant the licence applied for the Committee shall take into account the welfare of the fishing industry in this Island and of the persons engaged in it and the experience in fishery of the person making the application.

(4) Nothing in the last preceding subsection contained shall be taken to preclude the Committee in deciding whether or not, in the exercise of its powers under this section, to grant the licence applied for from taking into account such other factors as the Committee may, from time to time, deem necessary or expedient.

(5) The Committee may grant licences in exercise of its powers under this section in such numbers and to such persons, and operative for such periods, as shall be specified in such licences:

Provided that the operative period of any such licence shall not exceed the period of five years.

(6) The Committee may at any time revoke or vary any conditions attached to any licence granted in exercise of its powers under this section.
(7) A licence granted by the Committee in exercise of its powers under this section shall be personal to the holder thereof and shall not be assignable.

4. There shall be paid in advance to the Treasurer of the States in respect of the grant of a licence under section 3 of this Ordinance the fee of fifty pounds.

5. The licensee shall mark out the limits of the area of the fishery within which the right of several fishery is exercisable or, as the case may be, of that part of that area as may for the purposes of this section be specified by the Committee in the Fishery Licence granted in respect thereof in the manner prescribed in the order to which the licence relates, and the licensee shall maintain such marks in position and good repair.

6. (1) Every licensee shall keep for such period as shall, from time to time, be determined by the Committee, a record in writing in such form and containing such particulars relating to the exercise by such person of the right of several fishery in respect of which a Fishery Licence was granted to him, as the Committee may, from time to time, require, and every such record shall at all times be open to inspection by any person authorised in writing in that behalf by the Committee, on production of his authority if so required.

(2) A licensee shall as regards the exercise by him of the right of several fishery in respect of which a Fishery Licence was granted to him, if so required by notice in writing by the Committee, furnish to the Committee or to such person as may be specified in such notice, within such time as shall be specified in such notice, a true statement of all
7. (1) If, in the case of any right granted under a Fishery Licence, the Committee is satisfied, either as respects the whole of the area within which that right is exercisable or as respects any part of that area, that the licensee is not properly carrying into effect any of the terms of the licence or enforcing any of the restrictions of the order to which the licence relates or of any of the conditions attached to the licence or has failed to comply with any provisions of this Ordinance with respect to the exercise of his licence, the Committee may, by notice in writing served on the licensee, revoke the licence and thereupon that right shall be absolutely determined as regards that area or, as the case may be, that part thereof.

(2) For the purpose of subsection (1) of this section, the Committee may, from time to time, with respect to any fishery to which a Fishery Licence relates, make such inquiries and examination by any person authorised in that behalf by the Committee, and require from the licensee such information, as the Committee thinks necessary or proper, and the licensee shall afford all facilities for such inquiries and examination and give such information, accordingly.

(3) For the purpose of carrying out any inquiry or examination specified in the last preceding subsection, the person authorised in that behalf by the Committee shall, subject to the next succeeding subsection, have the right, at any reasonable time, to enter and search any premises or land used for carrying on any business in connection with the fishery and any area of the sea shore within the
limits of the fishery, and to obtain and take away samples (which shall be marked, labelled or otherwise made capable of identification) of any fish found within those limits; and, notwithstanding anything contained in any enactment for the time being in force in this Island relating to fishing, when the purpose for which any such sample was taken has been satisfied the person by whom the sample was taken shall dispose of it as the Committee may determine.

(4) A right of entry under the last preceding subsection shall not be exercisable in respect of any premises or land unless not less than twenty-four hours' notice of the intended entry has been given to the licensee or during the hours of darkness; and the person exercising the right shall, if so requested, produce written evidence of his authority before entering.

(5) Any person who obstructs any person authorised in that behalf by the Committee in the exercise of any power or right conferred by this section, or who refuses or without reasonable excuse fails to provide any information reasonably required by such person in the exercise of any such power or right, shall be guilty of an offence and liable, on conviction, to a fine not exceeding five hundred pounds.

8. Where the Committee refuses to grant a Fishery Licence to any person or grants such a licence subject to conditions, notice in writing of such refusal or grant setting out the reasons therefor and signed by the President or any other member of the Committee authorised in that behalf by the Committee shall be served, as soon as may be, on the applicant for the licence.

(1) It shall be the responsibility of every licensee to remove every bed made, every cage installed and every other thing of whatever description brought within any part of the area of the fishery to which the licence relates and to re-instate the aforesaid area to its condition prior to the grant of the licence to the satisfaction of the Committee on or before the date of the expiry of the licence under section 3(5) of this Ordinance or on or before the date of revocation of the licence under section 7 of this Ordinance.

(2) Where before the date of expiry of a licence or revocation of a licence, as the case may be, a licensee believes that he has fully complied with the requirements of subsection (1) of this section as regards every part of the area of the fishery to which his licence relates, he may apply in writing to the Committee to certify that the aforesaid requirements have been duly complied with.

(3) On receipt of an application under subsection (2) of this section, the Committee shall cause the area of the fishery to which the application relates to be inspected and—

(a) if satisfied that the requirements of subsection (1) of this section have been duly complied with in respect thereof, issue to the licensee a certificate of compliance;

(b) if satisfied that the requirements of subsection (1) of this section have not been duly complied with in respect thereof, notify the licensee in writing that the Committee is not so satisfied and such notification shall specify the action required to be taken by the licensee to ensure compliance with the aforesaid requirements.
(4) Without prejudice to the provisions of subsection (5) of this section, a person who knowingly fails to comply with the requirements of subsection (1) of this section shall be guilty of an offence and liable, on conviction, to a fine not exceeding five hundred pounds and to a further fine not exceeding two hundred pounds for every day during which the offence is continued after conviction.

(5) Where a person has failed to comply with the requirements of subsection (1) of this section then, without prejudice to any proceedings for an offence under subsection (4) of this section consequent upon such failure, the Committee may apply ex parte to the Court for an order authorising any person on behalf of the Committee to enter within any part of the fishery to which the order relates and to take such action to ensure compliance with the aforesaid requirements as shall be specified in the order; and the cost of taking such action shall be recoverable by the States from such person as a civil debt.

(3) On any appeal under this section the burden of satisfying the Royal Court that the decision of the Committee which is the subject of the appeal is intra vires or reasonable shall be discharged by the Committee and the Committee shall be entitled to a final right of reply.
